**Subject:** Deliver a REAL Portland Harbor Superfund Cleanup Plan

Dear Administrator Gina McCarthy,

The current plan is unacceptable. The businesses and other groups which profited for \*years\* at the cost of our health must now pay their rightful share and clean up their mess.

Alternative G with additional dredging in key areas is the RIGHT, moral choice.

Specific deadlines and hefty consequences are a necessary part of the plan, to ensure accountability and action.

Does the EPA really believe it's okay to leave the river with wildlife permanently poisonous to woman of childbearing age and children?

Any plan for this site must include cleanup of the heavily contaminated watershed sites upland, or it's just lipservice.

NO confined disposal facility at this site.

The EPA is failing environmental justice issues, particularly to historically (criminally) underserved communities. People in Portland notice and are calling you out.

Take a stand, we are begging you.

Sincerely,

(b) (6)

Portland, OR 97206
